OUR SURGERY CENTER’S ADVANCE DIRECTIVE POLICY

An ‘Advance Directive’ is a general term that refers to your oral and written instructions about your future medical care, in the event that you become unable to speak for yourself. In the State of California, all patients have the right to participate in their own health care decisions and to make Advance Directives or to execute Powers of Attorney that authorize others to make decisions on their behalf, based on the patient’s prior expressed wishes, when the patient is unable to make decisions or unable to communicate decisions. Scripps Encinitas Surgery Center respects and upholds those rights.

However, unlike in an acute care hospital setting, Scripps Encinitas Surgery Center does not routinely perform “high risk” procedures. While no surgery is without risk, most procedures performed in this facility are considered to be of minimal risk and are elective. You will discuss the specifics of your procedure with your physician who can answer your questions as to its risks, your expected recovery, and care after your surgery.

Therefore, it is our policy, regardless of the contents of any Advance Directive or instructions from a health care surrogate or attorney-in-fact, that if an adverse event occurs during the your treatment at this facility, we will initiate resuscitative or other stabilizing measures and transfer you to an acute care hospital for further evaluation.

At the acute care hospital, further treatments or withdrawal of treatment measures already begun will be ordered in accordance with your wishes, Advance Directive, or health care Power of Attorney. Your agreement with this facility’s policy will not revoke or invalidate any current health care directive or health care power of attorney.

If you wish to complete an Advance Directive, copies of the official State forms are available at your physician’s office or at:

http://www.calhealth.org/Download/AdvanceDirective_English.pdf or,

If you do not agree with this facility’s policy, we will be happy to assist you in rescheduling your procedure at an acute hospital.

DISCLOSURE OF OWNERSHIP

Scripps Encinitas Surgery Center is proud to have a number of quality physicians invested in our facility. Their investment enables them to have a voice in the administration of policies at our facility. This involvement helps to ensure the highest quality of surgical care for our patients. Your physician may or may not have an ownership interest in this facility, as not all physicians who practice here do have an ownership interest.
